

Where is my Customer Login on the Website ?

Until May 25th, 2018, each company has to fulfill the requirements of the new EU General Data Protection Regulation (GDPR). Otherwise, adhortatory letters and controlling fines can be imposed by the authorities. The EU-GDPR especialle define a high level of requirements for the security and protection of personal customer data. Therefore, the customer account available until now on the website will in future be loaded via secured HTTPS connection to be displayed by shortcut [€] on main window tab [Online] in the client application.
