

Wire_Bonding 3D: How To Adjust The Wire_Plane

Question:

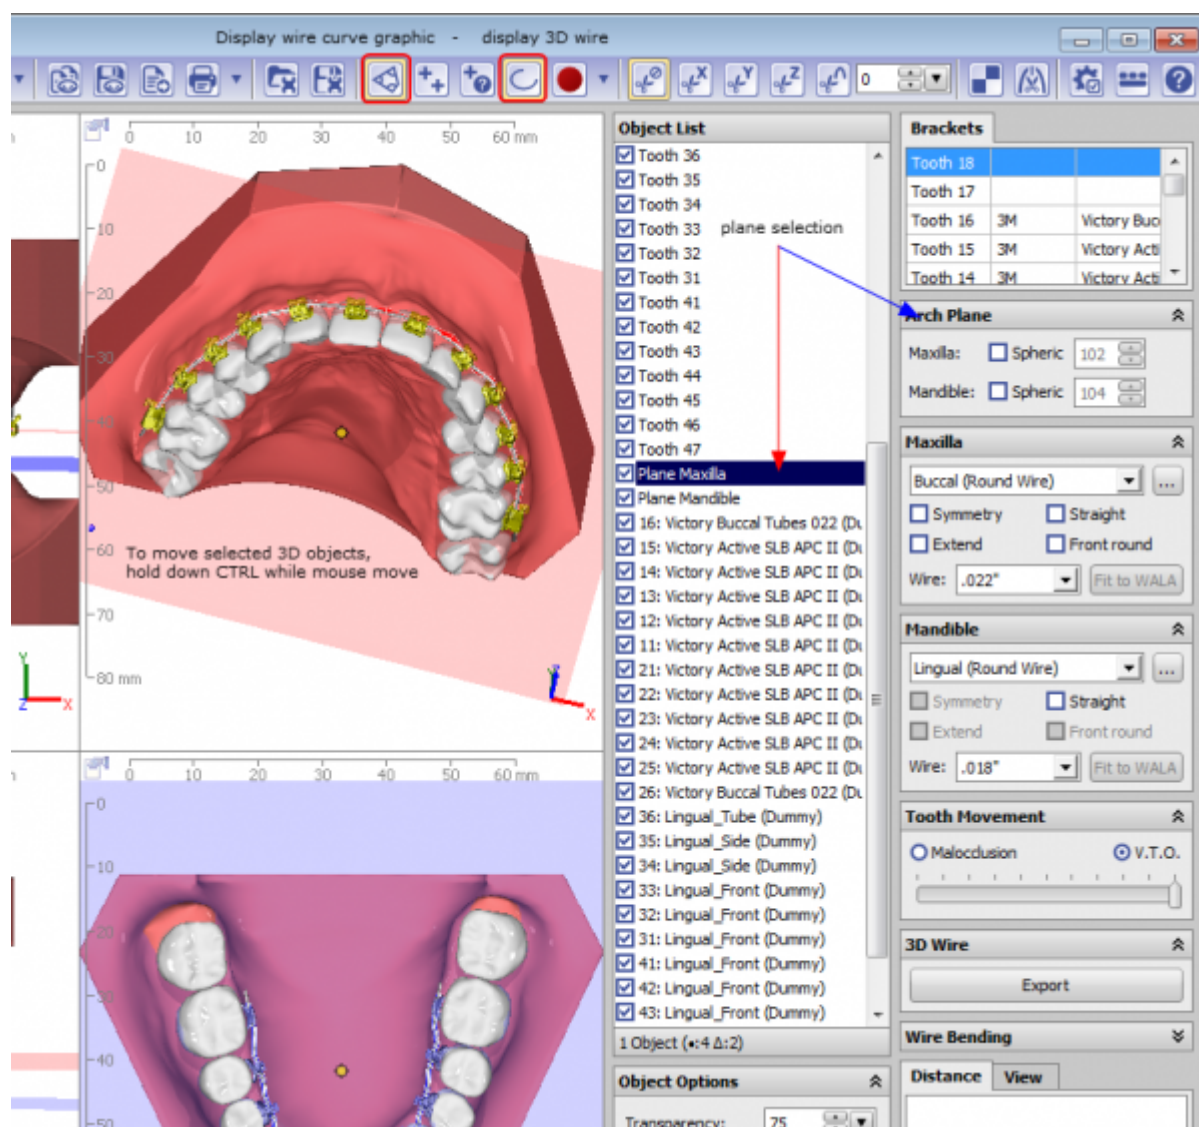

How can we adjust the wire plane upper or lower in relation to the dental arch in module Wire_Bonding 3D? =

Answer:

To move one of the wire planes, select the wire plane in the [object list](#) or alternatively by clicking the header of the corresponding jaw panel Maxilla or Mandible on the right.

To move only the object/s selected in the [object list](#), press CTRL while moving the 3D object by mouse.

To display the 3D wire, activate the corresponding wire [icon button](#) on top.
