

# INI-Entry AutoRetrieveVdds

---

## Syntax

```
[ImageAcquie] and [Image Acquire 3D]  
AutoRetrieveVdds=value    // Automatically generate thumbnails for selected VDDS  
image source  
value = 0 //deactivated  
value = N //activated
```

## Description

The AutoRetrieveVdds parameter activates (default) or deactivates the automatic generation of the patient image preview for preselected VDDS image source.
