

# Other Licensing Options

Image Instruments offers various commercial licensing options for the productive use of the OnyxCeph<sup>3</sup>™ software in different functional scopes. Information on prices and licensing models [here](#). In addition to commercial licenses, there are several paid and free options to use the software for testing and educational purposes. These are only for familiarizing with the use, but not for productive use according to the intended purpose. There is no entitlement to the issuance of these special licenses. Image Instruments will decide on this separately for each individual case.
